

April Scrapbook Page

Photograph size 6x4 landscape

Position large brown scallop punched edge paper 1 inch in from left hand side and top of background paper, so that it is just in from the corner.

Apply scallop border rub-on to thin brown paper strip.

Apply blue loopy line and floral border rub on to 2 inch wide scallop punched paper strip.

Apply bird and cloud rub-on on to thin yellow paper strip.

Glue thin brown border strip (with rub-on applied) to yellow punched border and position along the left hand side of the page 2 inches in from the edge.

Glue the thin yellow strip horizontally across the page 2 inches from bottom edge (crossing over the first border)

Glue the brown scallop border strip on top of this so that a narrow border of yellow is showing.

Tuck photo under the punched flower on the yellow panel and position 1½ inches down from top and 2 inches in from right. Adjust so the panel and photograph are balanced within the space leaving room for lettering below.

Decorate with punched flowers, card candy and lettering to form the word SPRING.

Tip: use the end of a rounded spoon handle to transfer rub-ons if you do not have a tool for this purpose

See website for photograph on the workshop page www.birdsinthebarn.co.uk
