

# June Scrapbook Page

You will need three photographs, one 6" by 4", the other two are optional close up details cut from photographs.

Stick your main image behind the brown frame trimming if necessary and position in the top right corner of the page 1 $\frac{3}{4}$ " in from the right and  $\frac{3}{4}$ " down from the top edge (this should cover the letters I M E printed on the page).

Trim and glue your detail images behind the flower centres and arrange below the frame.

Put the brown flower centre behind the daisy flower and add this die cut to your arrangement. There are extra die cuts in your pack so you can vary the arrangement. I used one of the cog circles to highlight the work HOPE.

Colour your tag with pencils or pens in a soft yellow or green to compliment the papers. I used pro marker buttercup. This tag can be used for your journaling and tied with a little string before attaching with a foam pad.

Attach the lettering with small foam pads over the top of the writing GOOD TIMES on the paper and across the photograph.

Decorate with curly clips and gemstones

Enjoy

Love Karen
