

May Scrapbook Page Instructions

You will need a photograph 4½" x 6" portrait cut to fit frame

Take your choice of ribbon (mine was green spot) and tie the two ends together to make a knot. You will now have a loop of ribbon knotted together. Place the knot down 3" from top and 3½" from right hand side of page and loop the remaining ribbon over the back. Trim to fit at the back allowing sufficient to stick down (with red double sided tape if you have it).

Push out striped strip with holes in it and tape down 4" from left hand side.

Tape down the brown spotted square scallop onto pink square scallop and tape down 1" from bottom and 3" from right hand side.

Frame your photograph with brown spot scalloped frame and tape down 1¾" from left and 2" from top.

Place the large pink flower over bottom right corner of frame then add brown stamen to centre.

Add word sweet under left hand bottom of photo frame then brown flower with pink stamen under this.

Add word simple over right hand top of brown and pink squares.

Place the patterned flower with brown stamen in top right hand of page.

The word Life is placed 1½" from bottom right hand corner then just above this will go a small strip and above that a smaller one still.

You will have enough bits and pieces left over to make a lovely greetings card.

Good Luck
